The Extra Good News -

- **Cross Country Action is pleased to announce that all 2010 TM 250/300 Enduro models will come fitted with the JRF Torque Control. The JRF T/C, together with the dual map ignition, gives the rider the choice of 16 different power curves at the flick of a switch. This instant rider tuning ability is a first for TM. There is no other dirt bike on the market with this unique tuning feature. The fitting of the JRF Torque Control opens up a whole new market for TM Two Stroke enduro motorcycles. The 2010 TM Two Stroke Enduro 250/300 motors will now appeal not only to the expert riders but also to the clubman/trail rider.**
